THE GREAT INVASION

PART 2

INVADERS WILD ORGY

FERNANDO - DOFANTASY.COM

INTRODUCTION

In the beginning of the 22nd century two powers dominated the world.

An awkward alliance between the Catholic Church and Islam ruled three continents: Europe, Africa and Asia except China on the grounds of obscure theocratic laws. Progress had stopped long ago, technology and medicine were declared sacrilegious and society was back into the middle ages. Plagues and sectarian religious wars devastated the land and killed most of its population.

China and Central and South America were ruled from Bejhin by the Red regime forming what's known as the Red League, an advanced techno-militaristic Orwellian system that controlled everything in human lives. Nothing escaped the eye of Big Brother.

Two centuries of mistaken birth control policies and a new form of deadly AIDS coming from deprived Europe had sent the Reds to a point of non return. Although these areas were over-populated, the ratio male/female was 30 to 1. The Red League was bound to disappear in two generations…

Only North America remained as it was at the beginning of the millennium. The country successfully fortified its borders cutting off any form of communication outside the country.

North America remained an oasis of freedom and prosperity in a troubled and devastated world. But not for long…

In 2132, scientist Chu Lun Li discovered the KAR retrovirus. KAR stands for Kill American Rats. KAR is a non-contagious form of unknown virus that reproduces only on spermatozoa, killing the subject in less than 24 hours and causing tremendous agony   On May 1st, 2133 and using their apparently innocuous GPS network of satellites, the Reds sprayed KAR over North America using a sophisticated virus production laser beam, killing all of its male population in a single day.

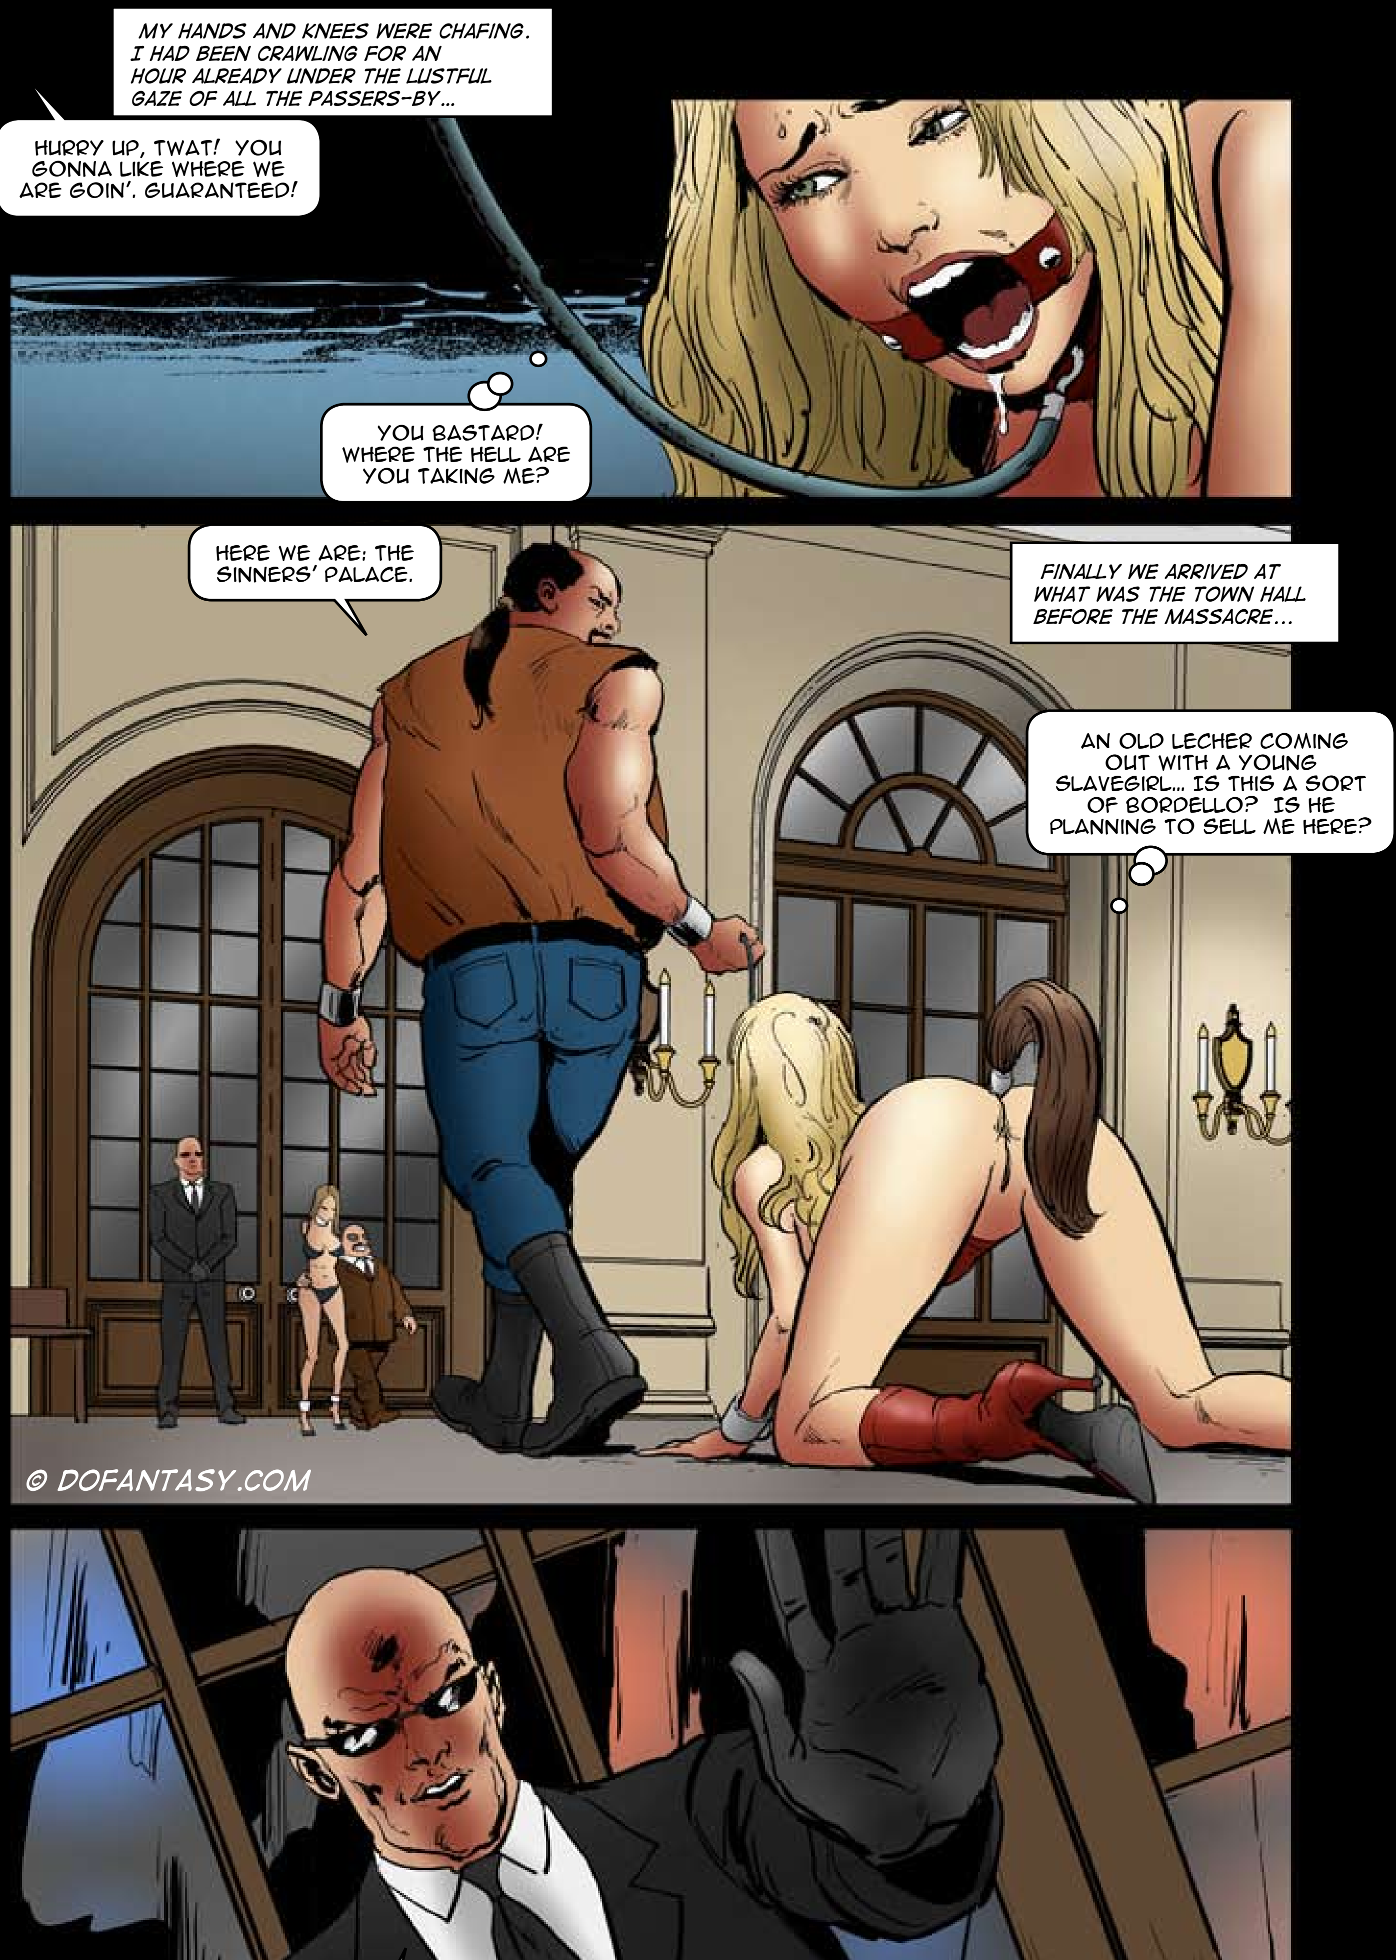

The invasion of the country started the day after by sea, air and land.

This story starts one year later. Millions of colonizers from the Red Empire, mostly from South and Central America and all of them male, now inhabit the most important cities of what was once the US and Canada.

During this year the immigrants have taken full control of the military and economic system. They live in the untouched houses of the slaughtered Americans, they use their kitchens, bathrooms, beds, they take care of their pets, their gardens and they use their much sought-after women, now called fuck-rats, for pleasure and breeding…

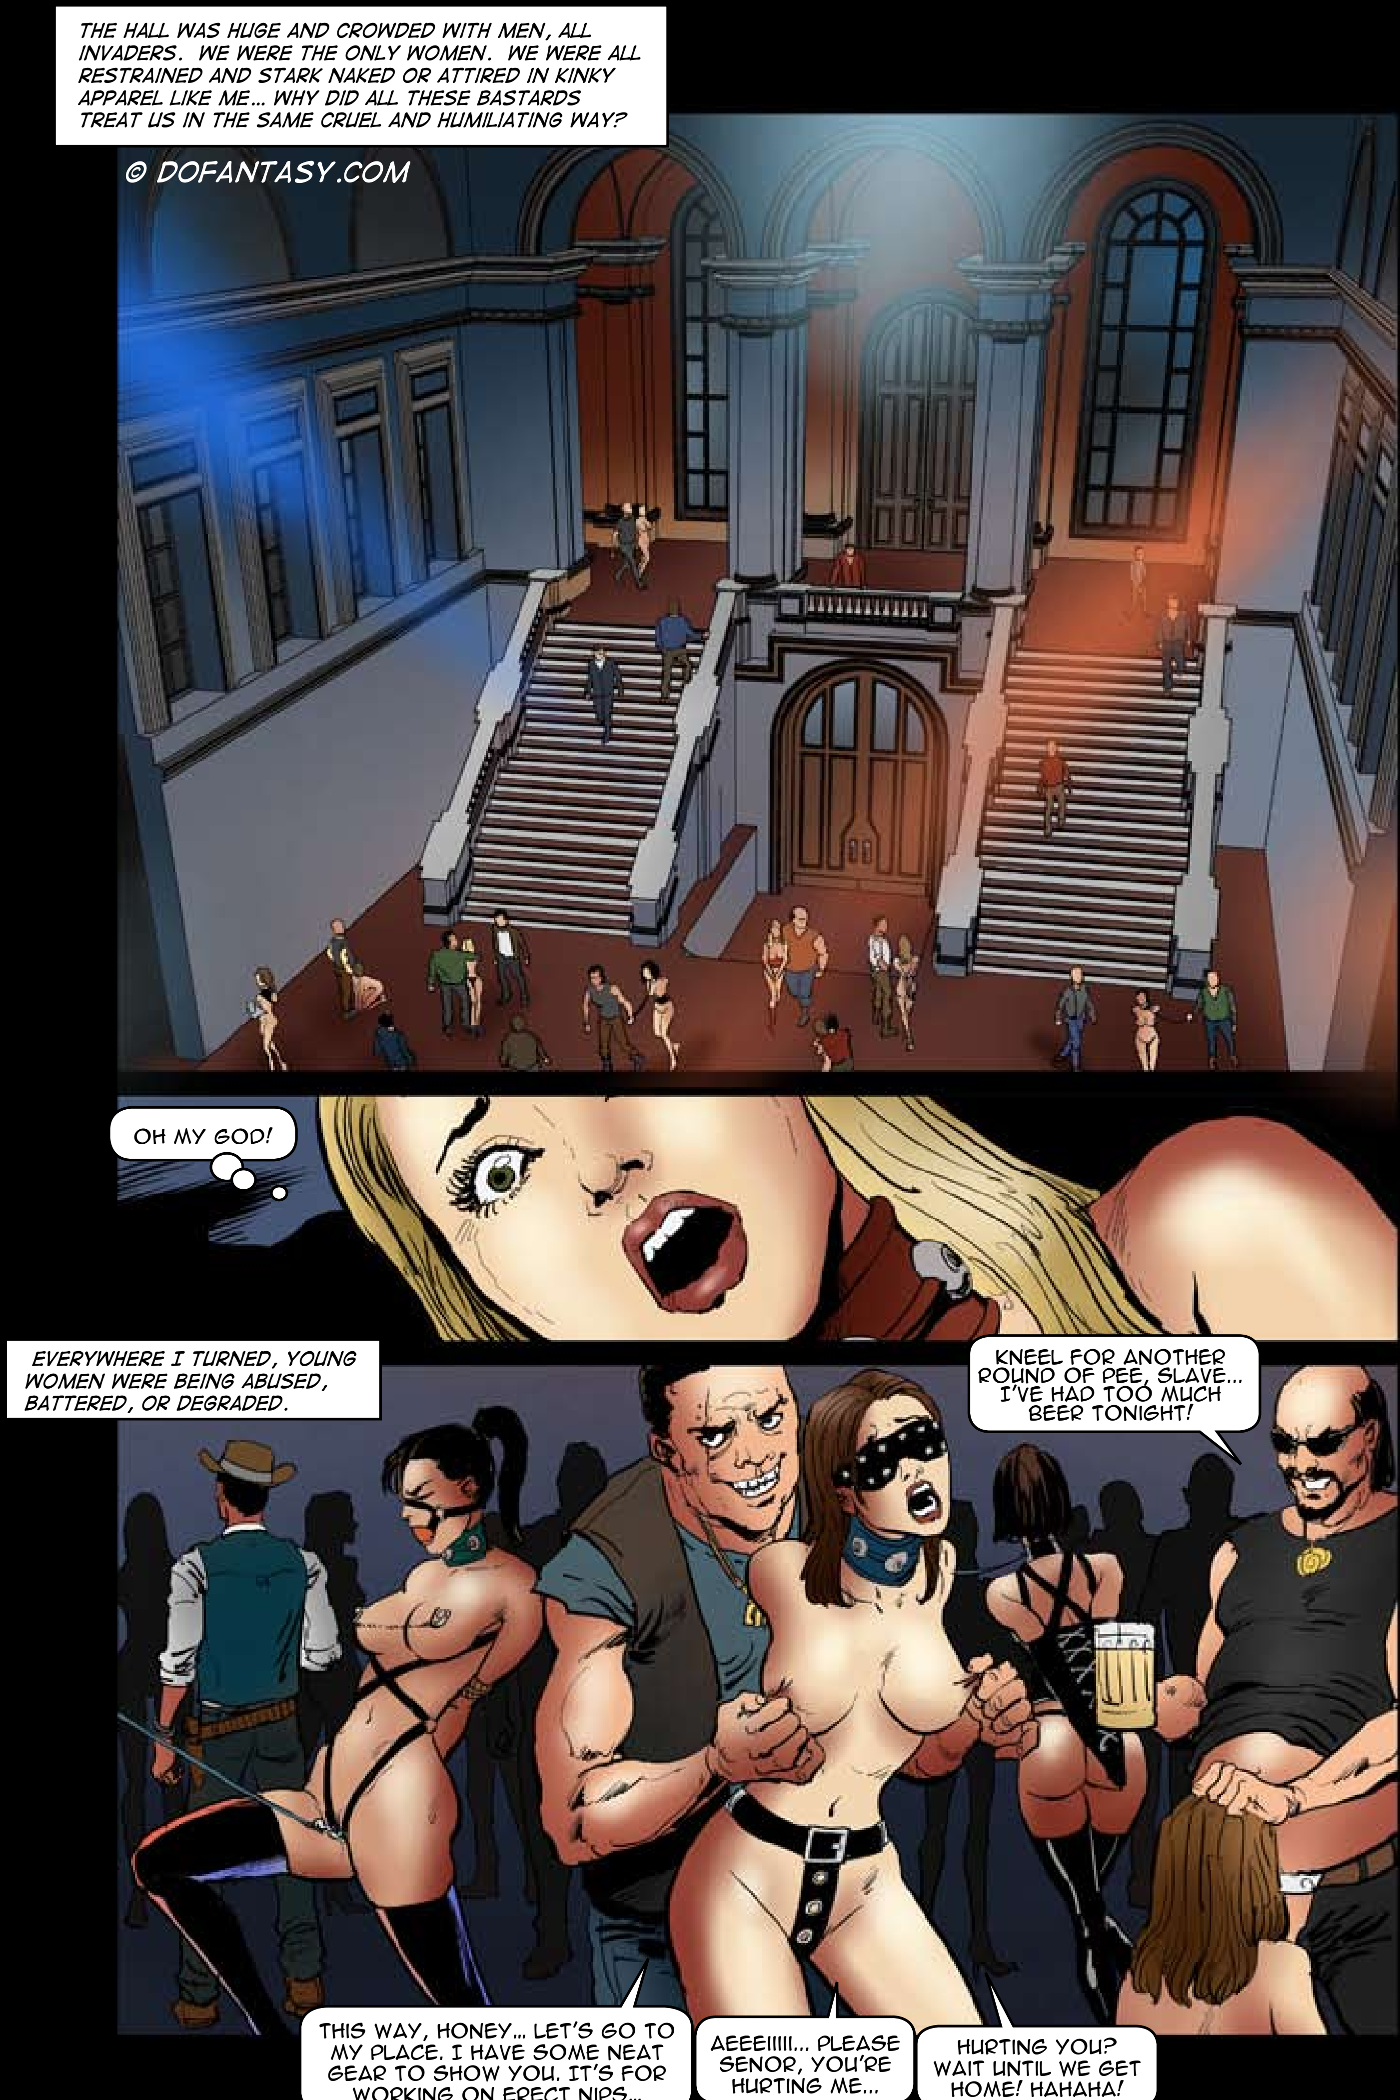

'THE GREAT INVASION' IS THE FIRST PART OF THIS COMIC
